How do you view it? I asked you these two questions because the way that you feel, think and act towards money formulates your Money Blueprint and determines whether or not you will be financially successful. Your Money Blueprint is ingrained in your subconscious mind and it has been immensely influenced and formulated by your interactions with others and their views of money like your parents, relatives, and the various institutions you have encountered in your lifetime like school, the church etc. In his book entitled Money Blueprint: The Secrets To Creating Instant Wealth author and serial entrepreneur Omar Johnson examines how exactly your Money Blueprint has been formulated and how it has possibly hindered you from achieving financial success. Maybe you are the type that has an aversion to money and believe that money is the root of all evil, or maybe you are the type that feel that rich people are greedy, or maybe you are the type who makes money only to sabotage yourself by giving it all away or by going broke like most people do when they win the million dollar or the professional athlete or entertainer who has squandered it all. No matter what your case maybe in this book you will find the solutions that will enable you to create a new, healthy and ideal Money Blueprint.
