OOPS I LEARNED MY ABCS, OOPS I LEARNED HOW TO READ (PAPERBACK)

Dog Ear Publishing, United States, 2014. Paperback. Book Condition: New. 274 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.The title of my book is called: Oop s, I Learned My ABC s; Oop s, I Learned How to Read. I structured this by teaching and assessing early childhood children. I found out how passionate they were about looking at books even though they didn t know the words. After days and days of thinking about putting my book together; I came up with the world s first children alliterated children story book. This book is very graphic and very fun to read. It will help children recognize and learn their Alphabet by seeing each ABC on its own desired page. The alliteration of each alphabet will help each child use proper pronunciation; distinguish between similar sounding alphabets; learn new and easy words; as well as, sound out each word. This book is great for the English language and will have children wanting the reader to read it more and more. The great thing is, the more the child hears the book, the easier it will be for them to sound out entire words which will help them learn how to read while having fun listening to the reader. Most of this book took place in an early childhood setting to promote children willingness to go to school and see different centers they use to assess the social, emotional, and cognitive skills on an early childhood level. It also contained several activities that teacher go over daily to help the child learn. ABOUT THE AUTHOR My name is Ricardo Hill and I am from a small town called Macon, Ms. I attended Noxubee County High School and later earned a bachelor s degree from Alcorn...
