Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 344 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. Can consciousness exist independent of body Is there life after death Do spirits really exist Is there something such as reincarnation Does an inanimate entity also have a spirit What are the physical attributes of the spirits and the world they inhabit Can we contact the dead These are some of the many questions that Biswajit Banerjee explores in this book which vividly describes the multitude of hair raising events that led to the formation of the Bureau for Advanced Paranormal Research and Investigation (BAPRI). This book could be deemed both as fiction and creative non-fiction as it is a good blend of facts and fiction. The protagonist Biswajit Banerjee, named after the author himself, is conducting a research into the unknown. Investigations into life after death happen to be one of the principal components of this research. His research leads him to meet many people who are hugely sensitive to paranormal phenomena and they tell him their experiences of the most unusual kind. Eventually the protagonist also turns sensitive to unknown forces. Then comes the most unexpected twist in his life. Will his sensitivity to the paranormal accentuate his problem or help him brave it What finally results in the formation of the Bureau Read this brilliant book by Biswajit Banerjee, with definite autobiographical elements, to find the answers. This item ships from La Vergne, TN. Paperback.
